2016 COMPLETE LINE COLLECTION

WHAT MAKES THE MAN

The campaign celebrates the essence of the Zippo man: the strength, the individuality, the reliability, and the sensibility. No matter who you are, or where you live, every man has a story to call his own. Having a story makes him unique; having a Zippo lighter makes him a man. The campaign shows men experiencing different moments to create unique and visually rich stories with one thing in common: that no matter the time or the trends or the place in which he lives, Zippo is “What Makes The Man”.

WHAT MAKES THE MAN

One Box

Unless otherwise stated, every Zippo windproof lighter in this catalog is packaged in the environmentally friendly “one box”, designed to address the growing concern over the depletion of our natural resources. Both the attractive gift box and the cardboard insert are made from renewable materials and are 100% recyclable. The patented “one box” is attractive, easy to handle, and designed to display more of the lighter than ever.

Zippo Guarantee:

Any Zippo pocket lighter, when returned to our factory, will be put in first class mechanical condition free of charge, for we have yet to charge a cent for the repair of a Zippo pocket lighter, regardless of age or condition. The finish, however, is not guaranteed.

This guarantee gives you specific legal rights and you may also have other rights which vary from state to state. Other Zippo products carry their own specific warranties.

Consumer Disclaimer:

Terms and pricing are limited to authorized Zippo sales distributors and wholesalers only. Unless specified as retail pricing, this information is not intended for consumer use.

BOTTOMZ UP

For decades, the Zippo bottom stamp has marked the authenticity of every genuine Zippo windproof lighter. Now Zippo turns the whole system upside down . . . literally . . . with Bottomz Up, a high polish chrome lighter engraved with the traditional Zippo stamp not only on the bottom, but also on the top of the lighter. The conventional

date code, showing month and year of manufacture, is stamped on the canned-style bottom, while the canned-style lid is branded with the year of manufacture and the **B** symbol authenticating it as Bottomz Up.

Packaging includes an I-card identifying lighter as Bottomz Up.

Zippo's classic brushed chrome finish takes on a new look! Directional brushing results in creative design patterns with the enduring appeal of traditional brushed chrome, but with a fresh new perspective. Sides of the directional brushed lighters are tumbled rather than high polish. See Signature Styleguide on pages 70 - 71 for customization options.

Windy has been one of Zippo's most beloved icons since she was introduced in 1937, illustrating the new windproof lighter in Zippo's first national advertisement. Since that time, she has been depicted in scores of advertisements, numerous promotional pieces, and hundreds of Zippo lighter designs from all over the world.

The Windy Collectible of the Year has a whisper-thin emblem, reminiscent of Zippo's early Metallique process, on a classic 1935 Replica lighter. Limited to only 35,000 pieces worldwide, each lighter is consecutively numbered and authenticated with an exclusive bottom stamp.

Although the surface area of a Zippo lighter remains constant, the possibilities for decorating it seem endless, as illustrated by the lighters on these two pages. The laser engraved theme of each lighter carries around every surface - front, reverse, hinge side, opposite side - even the top! It's an incredible look that ties all of the elements together.

NEW

A mirrored image of a winged Pegasus graces the front and reverse surface in finely detailed laser engraving, supplemented by a decorative pattern on the curved lid and sides.

The Zippo pipe lighter is made to the same high quality standards as a Zippo windproof lighter, but designed for the special needs of pipe smokers. The ingenious design encases the flame in metal, allowing it to be drawn directly into the pipe without bending over the side. The result: perfectly lit tobacco, with no damage to the pipe.

The insert of a Zippo pipe lighter is exactly the same size as the standard windproof lighter insert, allowing pipe smokers who have a treasured Zippo windproof lighter the option of replacing the insert to continue carrying the favorite case.

PREMIUM CUSTOM IMPRINT METHODS

All models below require special handling due to the unique processes and methods on each piece. Several model styles below require minimum quantities, tooling charges, special lead times, as well as specific art files. Contact your Zippo sales representative for more information. **All luxury custom orders need to be routed through the Zippo Design Center.**

Lustre

Zippo's signature lustre etch method produces an attractive, durable imprint. The artwork is etched into the lighter and plated for a permanent mark. A beautiful contrasting effect is created.

pg. 13

Double Lustre

The design is double etched into the lighter. This layered process displays a multi dimensional effect. A portion of the design will be chromed out for impact.

pg. 27

Stone Attachment

Zippo designers and engineers continue to develop special inlayed materials and stones to delight Zippo customers.

- Some restrictions apply

pg. 23

Splash & Texturing

A person wearing a plaid shirt, dark pants, and a cap is walking through a forest. They are carrying a large bag filled with logs. The sun is shining brightly through the trees, creating a lens flare effect. The word "OUTDOOR" is written in large, bold, grey letters in the upper right corner.

OUTDOOR

THIS FLAME BURNS HARDER THAN THE WIND BLOWS

Flex Neck Utility Lighters

There's no better way to get fires started in a stiff wind. Dual-flame technology keeps the flame burning strong. A flexible neck precisely positions the flame in any direction. The narrow gauge head is small enough to reach into tight spots in lanterns and camping stoves. They're great for lighting candles, BBQ grills and more. Sturdy, all metal construction.

- Flexible neck
- Wind-resistant dual flame
- Rugged metal construction
- Patented child resistant safety button
- One-handed ignition switch
